

PRESS RELEASE

Voice on the Go[®] Now Available on the Motricity's PocketGear.com Storefront

Voice Email Offered to Over 200 Million Subscribers

BARCELONA, Spain – February 13, 2008 – Voice on the Go Inc., a leading worldwide provider of mobile voice solutions today announced that Voice on the Go[®] is available on Motricity's PocketGear.com website that offers applications direct to consumers for their mobile devices. Motricity is a leading provider of mobile content services and solutions to some of the largest and most popular mobile content storefronts on the Web today.

With Voice on the Go, mobile users can conveniently dial in and listen to, compose, reply, and delete their email, access their calendar, search contacts by name or company and place calls – ALL BY VOICE.

Voice on the Go, is essential for "People on the Go" and provides safe, hands-free and eyes-free access while driving, or any other time. Voice on the Go works on any mobile phone, BlackBerry[®] smartphone, Apple[®] iPhone[™], Palm[®] Treo[™], Symbian, and Windows Mobile[®] devices.

"Email is now a critical part of daily life and we are excited to offer access to email by voice on any phone through our PocketGear website" said Alex Bloom, VP/GM of Smartphone.

"Voice on the Go is an industry-leading, innovative voice service that satisfies a huge global demand for voice access to email and other content. We're ecstatic that now, through Motricity's award-winning platform, it is available to hundreds of millions of subscribers worldwide," said Simon Arnison, Chief Executive Officer of Voice on the Go.

Voice on the Go can be activated quickly with no voice training, no special hardware or software to download. Voice on the Go works on any phone, on any carrier network and supports most popular email services.

Voice on the Go is available immediately on Motricity's network of Web sites, including Pocketgear.com and Smartphone.net, that offer applications direct to consumers for their mobile devices.

About Voice on the Go

Voice on the Go, one of the fastest growing mobile voice applications worldwide, provides consumers with access to email, contacts, calendar and other content BY VOICE at any time, on any mobile phone, BlackBerry[®] smartphone, Apple[®] iPhone[™] or other PDA.

Voice on the Go enables subscribers to listen to, compose, reply and forward their email all by voice – hands-free and eyes-free safely while driving, or any other time. The company has global headquarters in Toronto, Canada and is experiencing explosive growth through an addressable market of more than two billion mobile subscribers worldwide¹.

Currently, 50 countries in the world have legislation that strictly prohibits usage of mobile phones or texting while driving unless usage is “hands-free”. In the United States: California, Connecticut, New Jersey, New York, Utah and Washington, DC have passed similar legislation while other states have partial bans and bills pending.

Voice on the Go is available to consumer and enterprise customers, as well as telecommunications carriers and resellers worldwide in a number of languages including English, French, German, Spanish, Italian and Dutch.
