

PRESS RELEASE

Voice on the Go[®] Joins O2's Accelerator Programme

BARCELONA, Spain – February 12, 2008 – Voice on the Go Inc., leading worldwide provider of mobile voice solutions today announced that Voice on the Go has been accepted into O2's Accelerator Programme. The agreement means that Voice on the Go will enter the O2 "incubator process", enabling the innovative voice service to be sold by the O2 sales network.

With Voice on the Go, mobile users can conveniently dial in and listen to, compose, reply, and delete their email, access their calendar, search contacts by name or company and place calls – ALL BY VOICE.

Voice on the Go, is essential for "People on the Go" and provides safe, hands-free and eyes-free access while driving, or any other time. Voice on the Go works on any mobile phone, BlackBerry[®] smartphone, Apple[®] iPhone[™], Palm[®] Treo[™], Symbian, and Windows Mobile[®] devices.

"O2's prestigious Accelerator Programme accepts only leading third-party products and applications that meet stringent key success criteria," said Simon Arnison, Chief Executive Officer of Voice on the Go. "Our acceptance into the Accelerator Programme provides a unique opportunity to have Voice on the Go recognized, endorsed, and sold as a revolutionary voice application by a leading provider of mobile services to consumers and businesses in the UK."

Voice on the Go can be activated quickly with no voice training, no special hardware or software to download. Voice on the Go is offered on the O2 network and supports most popular email services.

Visit us at GSMA Mobile World Congress at Stand 2D59 in Hall 2 to see a Voice on the Go demo and to learn more.

About Voice on the Go

Voice on the Go, one of the fastest growing mobile voice applications worldwide, provides consumers with access to email, contacts, calendar and other content BY VOICE at any time, on any mobile phone, BlackBerry[®] smartphone, Apple[®] iPhone[™] or other PDA.

Voice on the Go enables subscribers to listen to, compose, reply and forward their email all by voice – hands-free and eyes-free safely while driving, or any other time. The company has global headquarters in Toronto, Canada and is experiencing explosive growth through an addressable market of more than two billion mobile subscribers worldwide¹.

Currently, 50 countries in the world have legislation that strictly prohibits usage of mobile phones or texting while driving unless usage is “hands-free”. In the United States: California, Connecticut, New Jersey, New York, Utah and Washington, DC have passed similar legislation while other states have partial bans and bills pending.

Voice on the Go is available to consumer and enterprise customers, as well as telecommunications carriers and resellers worldwide in a number of languages including English, French, German, Spanish, Italian and Dutch.
